

**Canada Energy Regulator****Future-Oriented Statement of Operations (unaudited)
for the year ending March 31
(in thousands of dollars)**

	Forecast results 2021-22	Planned results 2022-23
Expenses		
Energy Adjudication	22,143	22,407
Safety and Environment Oversight	29,140	28,221
Energy Information	9,558	8,267
Engagement	11,150	11,067
Internal Services	50,885	48,139
Total expenses	122,876	118,101
Revenues		
Regulatory fees	122,040	118,035
Miscellaneous revenues	0	0
Revenues earned on behalf of government	(122,040)	(118,035)
Total revenues	0	0
Net cost of operations before government funding and transfers	122,876	118,101

The accompanying notes form an integral part of the Future-Oriented Statement of Operations.

Notes to the Future-Oriented Statement of Operations (unaudited)

1. Methodology and significant assumptions

The Future-Oriented Statement of Operations has been prepared based on government priorities and departmental plans as described in the Departmental Plan.

The information in the forecast results for fiscal year 2021-22 is based on actual results as at September 30, 2021 and on forecasts for the remainder of the fiscal year. Forecasts have been made for the planned results for fiscal year 2022-23.

The main assumptions underlying the forecasts are as follows:

- The department's activities will remain substantially the same as in the previous year.
- Expenses and revenues, including the determination of amounts internal and external to the government, are based on experience. The general historical pattern is expected to continue.

These assumptions are made as at September 30, 2021.

2. Variations and changes to the forecast financial information

Although every attempt has been made to forecast final results for the remainder of 2021-22 and for 2022-23, actual results achieved for both years are likely to differ from the forecast information presented, and this variation could be material.

In preparing this Future-Oriented Statement of Operations, the Canada Energy Regulator has made estimates and assumptions about the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, and are continually evaluated.

Factors that could lead to material differences between the Future-Oriented Statement of Operations and the historical statement of operations include:

- the timing and the amount of acquisitions and disposals of property, plant and equipment, which may affect gains, losses and amortization expense;
- the implementation of new collective agreements;
- economic conditions, which may affect the collectability of loan receivables;
- other changes to the operating budget, such as new initiatives or technical adjustments later in the fiscal year.

After the Departmental Plan is tabled in Parliament, the Canada Energy Regulator will not be updating the forecasts for any changes in financial resources made in ensuing supplementary estimates. Variances will be explained in the Departmental Results Report.

3. Summary of significant accounting policies

The Future-Oriented Statement of Operations has been prepared using the Government of Canada's accounting policies in effect for fiscal year 2021-22 and is based on Canadian public sector accounting standards. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian public sector accounting standards.

Significant accounting policies are as follows:

a) Expenses

Transfer payments are recorded as an expense in the year the transfer is authorized, and all eligibility criteria have been met by the recipient.

Other expenses are generally recorded when goods are received or services are rendered and include expenses related to personnel, professional and special services, repair and maintenance, utilities, materials and supplies, as well as amortization of tangible capital assets. Provisions to reflect changes in the value of assets or liabilities, such as provisions for bad debts, loans, investments and advances and inventory obsolescence, as well as utilization of inventories and prepaid expenses, and other are also included in other expenses.

b) Revenues

Revenues from regulatory fees are recognized based on the services provided in the fiscal year.

Funds received from external parties for specified purposes are recorded upon receipt as deferred revenue. These revenues are recognized in the period in which the related expenses are incurred.

Deferred revenue consists of amounts received in advance of the delivery of goods and rendering of services that will be recognized as revenue in a subsequent fiscal year as it is earned.

Other revenues are recognized in the period the event giving rise to the revenues occurred.

Revenues that are non-respendable are not available to discharge the department's liabilities.

Although the deputy head is expected to maintain accounting control, he or she has no authority over the disposition of non-respendable revenues. As a result, non-respendable revenues are earned on behalf of the Government of Canada and are therefore presented as a reduction of the department's gross revenues.

4. Parliamentary authorities

The department is financed by the Government of Canada through parliamentary authorities. Financial reporting of authorities provided to the department differs from financial reporting according to generally accepted accounting principles because authorities are based mainly on cash flow requirements. Items recognized in the Future-Oriented Statement of Operations in one year may be funded through parliamentary authorities in prior, current or future years. Accordingly, the department has different net cost of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

**a) Reconciliation of net cost of operations to requested authorities
(in thousands of dollars)**

	Forecast results 2021-22	Planned results 2022-23
Net cost of operations before government funding and transfers	122,876	118,101
Adjustment for items affecting net cost of operations but not affecting authorities:		
Services provided without charge by other government departments	(15,220)	(15,220)
Amortization of tangible capital assets	(4,294)	(4,317)
Total items affecting net cost of operations but not affecting authorities	(19,514)	(19,537)
Adjustment for items not affecting net cost of operations but affecting authorities:		
Acquisition of tangible capital assets	945	965
Increase in prepaid expenses	758	737
Total items not affecting net cost of operations but affecting authorities	1703	1702
Requested authorities forecasted to be used	105,065	100,267

b) Authorities provided/requested (in thousands of dollars)

	Forecast results for 2021-22	Planned results for 2022-23
Authorities requested		
Vote 1: operating expenditures	94,294	90,160
Statutory amounts:		
EBP	10,771	10,107
Total authorities provided/requested		
Less: Estimated unused authorities and other adjustments		
Requested authorities forecasted to be used	105,065	100,267
