CSA Z662-07 Oil and Gas Pipeline Systems

Basis for Issuance

The Canadian Standards Association recently published and released to the general public the latest version of *CSA Z662-07 Oil and Gas Pipeline Systems*.

Background

Pursuant to the provisions of Paragraph 4(1)(d) of the *Onshore Pipelines Regulations, 1999* the latest version of this standard is by reference incorporated into the regulations and comes into force as of the date of publication and release to the general public, 27 July 2007.

NEB Expectations

As there are significant changes and additions to the standard, the NEB expects that companies will review the latest version of *CSA Z662-07* and take the steps necessary to ensure compliance with its provisions as soon as practical.
